

Changing the name of your monitored points can be done from the dashboard. Once logged in, click on the Data tab on the top left menu, and finally on the Attributes icon on the top right corner.

The screenshot shows the Wattics dashboard interface. The top navigation bar includes 'Dashboard', 'Data' (highlighted), and 'Admin'. The user 'Anthony Schoofs' is logged in. The left sidebar shows a tree view of 'Monitored Points' with the following structure:

- Best Resorts Inc.
 - Alpha Hotel
 - Beta Resort & Spa
- Data Center Inc. (selected)
- Food Corp.

The main content area displays 'Organization Details' for 'Data Center Inc.' with a name field. Below this is the 'Adjustment Data' section, which contains an information box stating 'INFO! There is no Measured Value created yet' and a 'New Adjustment' button. At the bottom, there is a 'Sites' table:

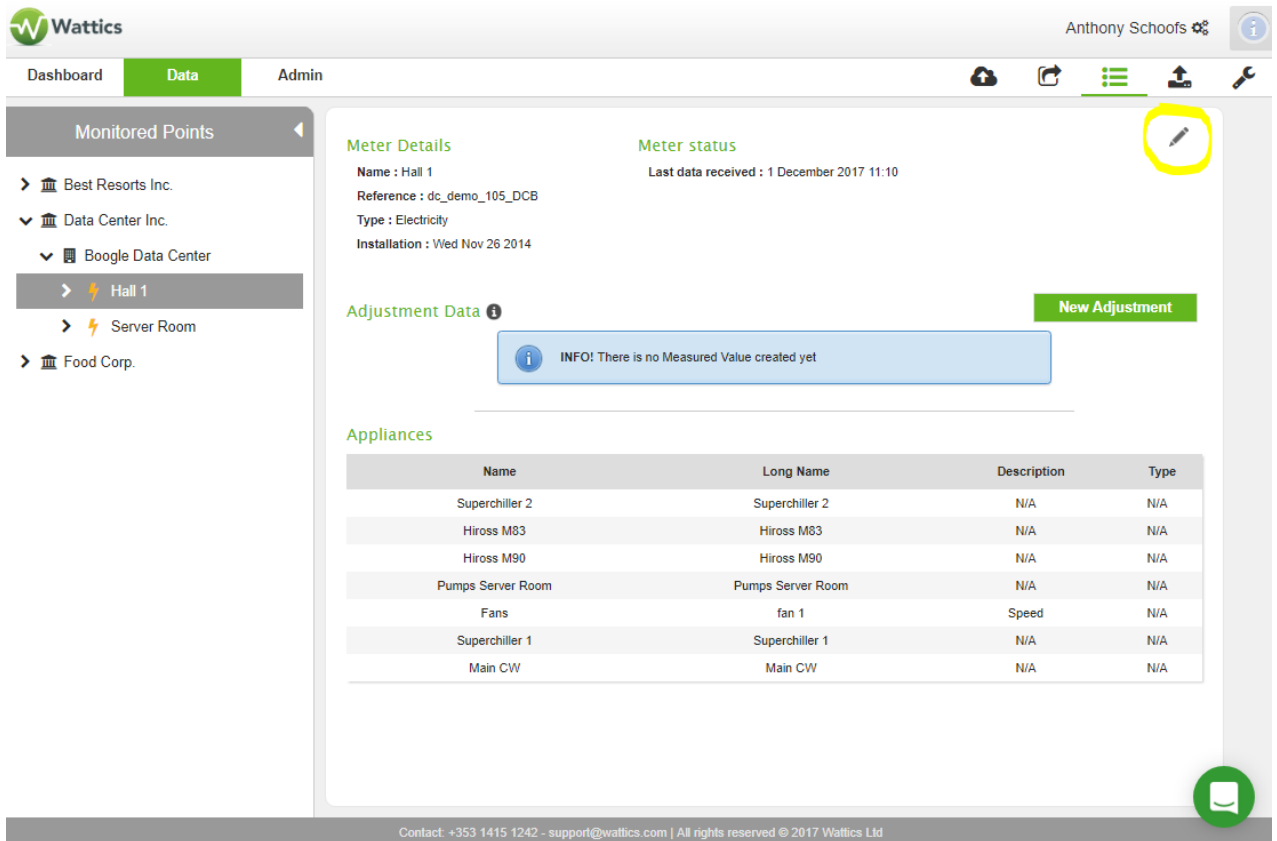

Name	Address	City
Boogle Data Center	Bend, OR, USA > Oregon	Bend

Contact: +353 1415 1242 - support@wattics.com | All rights reserved © 2017 Wattics Ltd

The 'Attributes' page displays general information about your organisation, site and monitored points. You must click on your organisation, site and monitored points on the left hand side to update the information displayed on the main window.

Follow the steps below to update the name of your monitored points. The process is illustrated with the “Boogle Data Center” site where the point named “Hall 1” is changed to “Chillers”.

1. The first step is to select the point you are interested in in the menu tree (i.e. Hall 1 under Boogle Data Center). Current data point information is displayed.
2. Click on the double pencil symbol at the top right to edit the name.

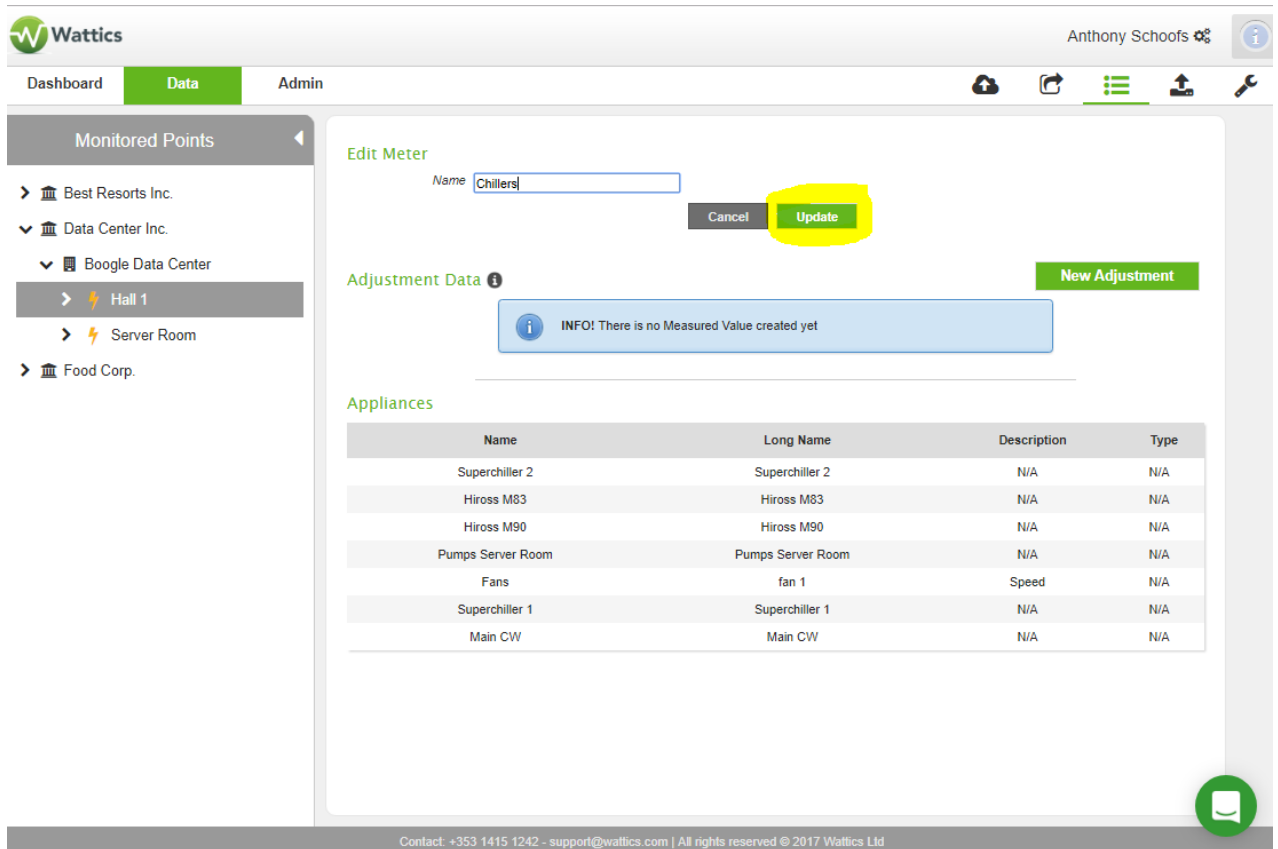

The screenshot shows the Wattics web interface. The left sidebar contains a menu tree with 'Monitored Points' expanded, showing 'Hall 1' selected. The main content area displays 'Meter Details' for 'Hall 1' with fields for Name, Reference, Type, and Installation. A 'New Adjustment' button is visible. Below the details is an 'Adjustment Data' section with an info message: 'INFO! There is no Measured Value created yet'. At the bottom, there is an 'Appliances' table.

Name	Long Name	Description	Type
Superchiller 2	Superchiller 2	N/A	N/A
Hiross M83	Hiross M83	N/A	N/A
Hiross M90	Hiross M90	N/A	N/A
Pumps Server Room	Pumps Server Room	N/A	N/A
Fans	fan 1	Speed	N/A
Superchiller 1	Superchiller 1	N/A	N/A
Main CW	Main CW	N/A	N/A

3. Enter the new name in the 'Name' field (e.g. Chillers).

4. Click on the 'Update' button to save the new name.

Edit Meter
